Dear Miss White:

Attached you will find copies of my letters to the Albert D. You will also find attached a copy of Mr. King's proposal.

I assume that you will forward to Albert D. King, Inc., a check for \$176.00, representing the 20% of Items One and Two, as provided by this agreement.

If you have any questions regarding any of these points as covered by the letters, or if you feel that there should be anything added, I would be glad to have you get in touch with me.

Yours truly,

OFFICE OF THE TREASURER

Mr. George W. King  
126 West St.  
Northampton, Mass.

Dear Mr. King:

It is my understanding that your department has made an estimate of \$925.00 for the cost of the work included in Item Three of the proposal of Albert D. King, Inc., for the modification of the transmission system of Smith Campus Radio Station SCSR.

This will authorize you to proceed with the work required to take care of these items and to charge Radio Station WCSR.

I also assume that your Department has approved the program and that the work as contemplated is such that there will be no interference with any electrical service of the College nor will there be danger to the student operators of the Radio Station.

Yours truly,

William A. Bodden  
Treasurer and Controller

Dear Mr. King:

AND APPROVED

I have reviewed your proposal of May 15, addressed to the Smith Campus Radio Station, W.C.S.R., in which you have outlined the work contemplated to be done during the summer to correct the deficiencies in transmission of programs from W.C.S.R.

It is my understanding that the work you will do will cost \$880.00, as indicated in Item One and Item Two of your letter of May 15. The work incidental to Item Three will be provided by the Smith College staff.

It is also my understanding that we will have, after this work is completed, a satisfactory distribution system which will function legally, so far as Federal regulations governing the operation of such radio stations are concerned; and also, that all work will be such that there will be no possibility of any physical injury to any student operators.

Yours truly,

William A. Bodden
